INSURANCE COMMISSIONER'S REPORT.

STATE OF NORTH CAROLINA, INSURANCE DEPARTMENT, RALEIGH, N. C., April 1, 1908.

To His Excellency, ROBERT B. GLENN,

Governor of North Carolina.

Dear Sir:—In accordance with the requirements of the General Insurance Law, I have the honor to submit to your Excellency the Annual Report of the Insurance Department for the fiscal year ending April 1, 1908.

DEPARTMENT.

During the past year the work of the department has increased and been developed in all the different branches. This the Commissioner has been enabled to do with the additional clerical force granted him by the last Legislature. But the work of the department is developing and increasing so rapidly that the Commissioner and his force are still taxed to the utmost, and additional room and clerical help would aid materially in increasing the efficiency of the department. During the past fiscal year, ending April 1, 1908, the Commissioner has collected and paid into the State Treasury the sum of \$224,680.58, besides the amount collected for the investigation of fires, \$5,303.21, and the amount collected and paid to the newspapers of the State for the publication of financial statements of the companies, \$2,185.50. The efficiency of the department would be very much increased if it occupied permanent quarters that were arranged for its business, instead of the present inadequate apartments.

COMPANIES ADMITTED.

The following companies and associations were admitted to do business in the State during the year:

LIFE (STOCK),

American National. Jefferson Standard.

Security Life Insurance Company of America.

LIFE (ASSESSMENT).

International Mutual. Mountain City Mutual. Mutual Registry Life.
Protective Mutual Life and Health.

FIRE.

Firemen's of Newark. First Russian, German Union Fire. Interstate Fire. Norfolk Fire. Seaboard Fire. Spring Garden Fire.

Walla Walla Fire.

Washington Fire.

MISCELLANEOUS.

Continental Casualty.
Philadelphia Casualty Company.

General Accident, Fire and Life Assurance Corporation, Ltd.

FRATERNAL ORDERS.

District Household of Ruth No. 10. Standard Fraternal Society.

Peoples Home and Charitable Assn. Snpreme Forest Woodmen Circle.

Union Fraternal Leagne.

STOPPED BUSINESS.

The following companies or associations either did not renew their lieense at the close of the year 1907 or ceased to do business in the State during the past year:

1111

Assnrance Company of America. Indemnity Fire.

FRATERNAL ORDERS.

American Gnild.

American Union Benefit.

COMPANIES LICENSED IN 1907.

The following companies were admitted to do business in the State under the General Insurance Law, where they had not been already admitted, and were lieensed for the year ending April 1, 1908:

LIFE COMPANIES.

Etna Life.
American National Life.
Connecticut Mutual.
Equitable Life Assurance.

CHARTERS.

Under our law the State is saved much expense, as the time of the Legislature is not taken up in passing upon charters for insurance companies and associations, but charters, when approved by the Insurance Commissioner, can be issued by the Secretary of State. During the year the Commissioner has examined and approved and certified to the Honorable Secretary of State articles of incorporation for the following companies and associations:

LIFE

Jefferson Standard, Peoples Mutual Life. Southern Fidelity Life. Sun Mutual Life.

MUTUAL ASSESSMENT ASSOCIATIONS,

Durham Mutual Medical Aid. International Mutual. Mountaiu City Mutual. Mutual Registry.

Protective Mutual Life and Health.

FRATERNAL ORDERS.

Christian Brotherhood Society.
District Household of Ruth No. 10.
Grand United Order of St. Luke.
Mutual Brotherhood of Colored Locomotive Firemen and Trainmen.

Home Mutual Life Ius, Association. Peoples Home and Charitable Assn, Pink Hill Fraternal Insurance Union. Sons and Daughters of Ziou. Standard Fraternal Society, Inc.

VIOLATIONS.

The Commissioner is required to see that all insurance laws are enforced, and especially to look into and follow up all violations of these laws, by not only insurance companies and associations, but by citizens of the State. Under the law no insurance company, association or order can do business in this State without being licensed by

the Commissioner, and then only through agents who have already been licensed by the Commissioner. This calls for active work from time to time, and, while the demands along this line have been very great, yet it is gratifying to know that much has been accomplished in obtaining correct practices from companies and their agents doing business in the State, as well as in keeping out of the State such companies and associations as are not worthy of the patronage of our citizens. The Commissioner has endeavored to so exercise this supervision which he is required to take over companies doing business in the State as to make it of great service to the citizens of the State, and they are realizing more and more the value of this supervision to them and are aiding the Commissioner by making to him complaints of all unjust treatment or impositions that are attempted to be practiced upon them.

In no part of the work of the department has the Commissioner met with more success than in carrying out the duty imposed upon him by law in having all suspicious fires investigated. There come regularly to the department reports of all fires in the State, not only from insurance companies, but from the sheriff of each county and the proper officers of the cities and towns of the State. These reports enable the Commissioner not only to keep a record and compile statisties of all fires in the State, but to keep in close touch with those supposed to be of incendiary origin, so that he can have the circumstances carefully looked into. Whenever the Commissioner finds that the circumstances justify a prosecution, he has the same brought and cooperates with the courts in getting the necessary evidence. In a large number of cases where the circumstances are such as to call for a full investigation the evidence is not sufficient to warrant a conviction or prosecution; but in these cases the work is not lost, as frequently a thorough investigation accomplishes as much in a community in the way of prevention of fires as a conviction. The Commissioner has in his employ Capt. W. A. Scott, whose time is taken up in the investigation of fires in the State and in looking after the enforcement of the building and inspection laws, and the Commissioner desires to bear witness to the prompt and efficient manner in which he discharges these delieate duties

ERECTION AND INSPECTION OF BUILDINGS.

There is perhaps no law upon our statute books that will eventually do more for the good of the State and the protection of the property of her citizens than the building and inspection law. Under this law buildings are required to be erected in a proper manner, so they will not only be safe themselves from fire, but not be a menace to the surrounding property. Every incorporated eity and town is required to have a chief of fire department and to see that the buildings therein are regularly inspected. Much good has been accomplished by the enforcement of this law, and the best proof of its value is that it is most highly prized in those cities where it is most rigidly enforced. No progressive city or town in the State can afford to disregard its requirements and allow its citizens to erect buildings regardless of their safety. The enforcement of this law now gives a reduction in the rates of all cities and towns complying with its provisions, and in the end will very much lessen the fire waste in the State and further reduce the cost of insurance.

INSPECTION AND INSURANCE OF STATE PROPERTY.

Under the law it is made the duty of the Insurance Commissioner to inspect, at least once each year, the different State institutions, and to make such recommendations as seem proper to him to protect the State property and the inmates. This duty the Commissioner has endeavored to perform, and begs to express his appreciation, not only of the courtesy extended to him by those having charge of these institutions, but of their willingness to carry out the suggestions made by him. It is also the duty of the Commissioner to place insurance upon all State property, and for this he is allowed to use not exceeding \$10,000 annually. During last year he has provided protection of \$2,000,000 against fire for State property, at a cost of \$9,959.53 during the fiscal year ending November 30, 1907. Because of the erection of new buildings at the different State institutions, as well as the additions to the buildings already erected, the Commissioner finds it is impossible for him, with the amount of appropriation for this purpose, to provide such protection as in his judgment should be given to the State against the loss or damage of its property by fire.

HOME COMPANIES.

The organization and rapid growth of a proper class of insurance companies organized in the State are especially to be noted. Prior to the formation of the department there were practically no insurance companies whose home offices were located in the State, and the entire output for insurance protection in the State was paid to foreign companies and the profits carried beyond the limits of the State. For last year stock fire companies in the State reported as received in gross premiums \$2,396,546.61 for \$151,943,406.38 in risks written. The home legal reserve life companies reported as in force \$24,483,655, and as written during the year \$11,667,668, for which they received in premiums \$743,436.43, as against \$549,216.35 in 1906 and \$318,641.06 in 1905 and \$177,561.21 in 1904. These figures speak for themselves, and show that these companies are not only providing safe insurance for the protection of our citizens, but are keeping the money at home to be invested in State enterprises.

STATEMENTS AND TABLES.

Under our law every insurance company, association or order is required to file with the Insurance Commissioner as of December 31st a full and correct statement of the business for the year, and give such data as is necessary to show its financial condition. It is the duty of the Insurance Commissioner to examine these statements, to make abstracts for publication in some newspaper in the State, and to file with the Clerk of the Superior Court of each county copies of these abstracts for the information of the people. The statements published in this report are those filed by the officers of the companies for the past year, ending December 31, 1907. An examination of the statistical tables, as well as the individual reports, will give much information as to the financial condition of the companies under this department. It will be a pleasure for the Commissioner at any time to give, upon application by the citizens of the State, such information as to the character and standing of insurance companies as may be desired by them.

FINANCIAL.

The license taxes and fees required of companies, associations and orders doing business in the State are payable to the Insurance Com-

missioner. During the past year there has been an increase in the amount, and the Commissioner reports as collected and paid to the Honorable State Treasurer during the year:

For taxes on gross receipts	\$165,892.45
For licenses from companies	39,622.13
For fees and licenses for subagents	19,166.00
Total paid Treasurer	\$224,680.58
For publication of annual statements in newspapers\$2,266.50	
For investigation of fires	
· ·	7,569.71
Total	2020 050 00

In conclusion, the Commissioner desires to extend his thanks to the Solicitors, Sheriffs and other officers in the State, who have not only extended to him many courtesies, but aided him materially in the discharge of the various duties of the office.

The Commissioner also desires to especially express his appreciation of and obligations to his associates in the department—Chief Clerk, D. H. Milton; Stenographer and Clerk, Miss Ida Montgomery; Bookkeeper, Miss Mary Marsh; Lieense Clerk, Mr. A. H. Yerby, and Deputy Commissioner and Actuary, Mr. A. H. Mowbray, all of whom have been conscientious and efficient in the discharge of their duties.

Respectfully submitted,

Insurance Commissioner,
